

CS302 OS Assignment-4 Report

12312110 李轩然

DDL: May. 25 16:00

Time Spent: about 8h

A terminal window titled 'oslab@oslab-deb: /mnt/hgfs/assignment4-sched_250507_V2' with search, menu, and close icons. It displays the output of a scheduling test. The output shows statistics for workers 76, 77, and 78, including their exit times, scheduled, running, waiting, and turnaround times. It also shows the time used by each worker and the final slope. A message indicates that 10-times tests passed. Finally, it shows the exit of child 3 with code 0.

```
worker 78: exits at 5232
[sched] pid=78 priority=5 scheduled=16 running=149 waiting=131 turnaround=280
worker 77: exits at 5246
[sched] pid=77 priority=6 scheduled=20 running=146 waiting=148 turnaround=294
worker 76: exits at 5268
[sched] pid=76 priority=7 scheduled=25 running=142 waiting=174 turnaround=316
schedtest: worker pid 76: used 316 time
schedtest: worker pid 77: used 294 time
schedtest: worker pid 78: used 280 time
schedtest: worker pid 79: used 262 time
schedtest: worker pid 80: used 252 time
schedtest: worker pid 81: used 234 time
schedtest: worker pid 82: used 242 time
schedtest: worker pid 83: used 227 time
schedtest: final slope: -12273

===
schedtest: 10-times tests passed
===

[sched] pid=3 priority=0 scheduled=64 running=0 waiting=2965 turnaround=2965
